Dear Fellow Investor,

This will be the last time I'll write you about joining our inner circle... the WEALTH SOCIETY.

I didn't expect such an amazing response, due to the economic climate right now, but I've been pleasantly surprised, and saddened at the same time.

We haven't heard from YOU... and we want you!

We genuinely want to give you an incredible value for a very small cost. My editors and I want you to be part of our inner circle and **REAP** all the rewards of membership...

You Get \$6,129 In Benefits for a 67% Discount!

You get so much that I've had to write this long letter just to cover everything. Yes, you get over \$6,000 in benefits for only a \$595 initial investment—to see if you agree it's worth every penny.

**You Can Get Started as a Member Without Any Risk
Whatever... Ever!**

You can pay the entire amount of only \$1,995 for a full year. Or you can pay just the first quarter—only \$595. Either way, you're completely protected by our **100% full-refund guarantee**.

We know you'll be happy. And if you're not thrilled with all you get... I insist on giving you back your money!

As I said, we've had an overwhelming response from your fellow subscribers to their invitations to become WEALTH SOCIETY members.

We have fielded hundreds of calls and calculated thousands of dollars in refunds and discounts for our multi-product subscribers. And now, we're down to the wire.

We only have 5 more spots to fill for this membership drive. Then the doors will close. And I honestly don't know when we'll extend another invitation.

My analysts and I want to provide you with the most updated and well-researched ways to preserve and grow your wealth, with as much safety and stability as possible. That's our commitment to you.

We genuinely want to help you. That's why I am inviting you to join our 'inner circle' of concerned investors. Join our **exclusive** WEALTH SOCIETY today and feel more confident as we help you navigate this constantly-changing investing landscape.

It would be such a shame to let the curtain fall on your opportunity to join our prestigious group!

I think you need us, and we look forward to sharing our collective advisories with you, our 23 model portfolios—with an average return of 32.2% last year—and so much more, as you'll see below.

**Be One of the Last 5 to Benefit from Membership In Our
WEALTH SOCIETY...**

As a WEALTH SOCIETY member, you get every single Investing Daily publication and any new one that we add. And speaking of new publications... we just added a brand-new one in April.

It's *Jim Fink's Options for Income*, and it's caught on like wildfire! Due to overwhelming demand, we had to cap the number of subscribers. Now you can't even buy it if you want to. But it's free with our WEALTH SOCIETY membership.

You'll have an amazing collection of top-notch investment analysts covering all aspects of the stock, bond, international and ETF marketplaces.

It's like your own advisory roundtable where you get expert advice on growth, energy, utility, income, options, emerging markets, ETFs, Canadian income trusts, master limited partnerships and short-term trading... all in one place... just for our WEALTH SOCIETY members.

You can be assured our investment analysts will help guide you toward wealth accumulation and financial independence just like they do for their own families.

Take a Closer Look Into Your WEALTH SOCIETY Membership...

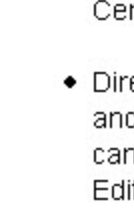

I'm sure you're familiar with Roger Conrad's 'voice of reason.' The long-time editor of *Utility Forecaster*, *Canadian Edge*, *MLP Profits* and *Big Yield Hunting*, Roger's level-headed approach has won him accolades from subscribers and from many others in the investing world. He is also a contributing editor to *Personal Finance* and the hard assets advice in *Global Investment Strategist*.

Elliott Gue is the editor of *The Energy Strategist*, *Personal Finance*, *MLP Profits* and *Stocks on the Run*, and now contributing editor to *Global Investment Strategist*. He consistently and methodically analyzes every aspect of his specialties and offers market-beating advice for his loyal readers.

And maybe you're a subscriber to Yiannis Mostrous' *Global Investment Strategist*. If so, you know that his Asian portfolios saw a 63% gain in 2010. And with the developing economies being the strongest right now, this may be a great way to see some appreciable gains of your own this year. Mr. Mostrous is also co-editor of *Global ETF Profits*.

Perhaps you're familiar with Benjamin Shepherd, our *Global ETF Profits* editor. If you're a subscriber of Ben's, you no doubt appreciate the diversification of ETFs and Ben's in-depth analyses he shares with you. Of course, as a member of our WEALTH SOCIETY, you will also receive everything Ben writes to his subscribers.

Adding to our roster of top-notch analysts, you'll also have everything written by David Dittman, including *Canadian Edge* and *Maple Leaf Memo*'s political and economic insights. Mr. Dittman is also co-author of *The Rise of the State*, with Yiannis Mostrous and Elliott Gue.

Our newest addition is Jim Fink, who just started *Options for Income*. In this brand-new advisory, Jim is teaching his readers the path to financial empowerment—how to collect "cash on demand" 100% tax-free. You will definitely want to listen to Jim's instructional methods so you can use his winning strategies to pocket ALL of your investment profits, instead of sharing them with Uncle Sam.

Year In and Year Out, Our Portfolios are Top Performers In Every Category.

- ◆ *Utility Forecaster*—an average of **11.9%** per year for over 19 years.
- ◆ *The Energy Strategist*—an average of **15.1%** every year since it started in 2005.
- ◆ *Global Investment Strategist*—an average of **19.6%** every year since inception in 2006.
- ◆ *Personal Finance*—average annual returns of **7.3%** since 1999. Not bad, considering the S&P lost an average of 1% during the same time period.
- ◆ *Canadian Edge*—an average of **12.7%** per year since 2003.
- ◆ *Master Limited Partnerships*—started in May 2009 and delivered **38%** returns last year.

This is the kind of wealth-building you can **count on** as a WEALTH SOCIETY member... year in and year out.

You Get ALL This for a Tiny Fraction of the Value!

For just \$1,995 per year, you will have unrestricted access to all our editors by phone and email—and everything we publish for as long as we publish it. (Plus all the other benefits I wrote above.)

And to help your budget, you don't even have to pay the entire fee. You can pay in quarterly installments of only \$595, if you prefer. It's your choice.

But wait... it gets even better! You're already a valued subscriber to one or more newsletters, right? But you will NOT be keeping your individual subscriptions any longer because you'll be getting everything we publish on your WEALTH SOCIETY web site, so...

We will refund **ANY** amount you have paid in advance on any subscription (for unused portions). For example, if you have two years left on a \$300-per-year service, we'll send you a refund for \$600 once you're accepted into the WEALTH SOCIETY. The last time we accepted new WEALTH SOCIETY members, we paid each one an average of \$667 upon joining!

And if you attended the Wealth Summit in Las Vegas this year, subtract another \$795, if you apply and are accepted by May 15, 2011. You may end up paying practically nothing for getting everything!

With our 100% money-back guarantee, you have nothing to lose! During the first 90 days, if you decide the WEALTH SOCIETY isn't what you expected, just write, call or send an email. No questions asked. We'll promptly refund your full \$1,995 (or whatever portion of your total you've paid).

After the 90 days, you're still not at risk at all. If you're not happy, you will get a prorated refund at any time and for any reason whatsoever.

I'm pretty sure you'll love it, though. We're giving you so much value—why wouldn't you?

I also want you to have a free, autographed copy of *The Rise of the State*, the newest book by Yiannis Mostrous, Elliott Gue and David Dittman. It's yours with my compliments!

When you stop and think about it, there's really no good reason to say "no" to my offer, is there?

You're already paying for at least one newsletter, so it just makes good business sense to find out what it's like to get your money back for your existing subscription... and then take a **full three months** to decide if you like getting every single piece of information that every single editor writes on every type of investment available. Doesn't that sound like a no-brainer to you? It did to our current WEALTH SOCIETY members, too.

Did you know that the average return of **ALL** our 23 model portfolios in 2010 was a **staggering 32.2%**? I'm not talking about the picks... no, that was for entire portfolios!

That's 17% higher returns than the S&P! How does that measure up to your total gains last year? And these returns were achieved using solid, smart strategies designed to protect our subscribers' hard-earned capital, with as little risk as possible. Our analysts watch their picks like a hawk—and alert their subscribers immediately when it's time to buy or sell.

We take our commitment to you, our subscribers, very seriously. And it shows in gains!

Let's Look at a Few of Our Portfolios' Returns from 2010...

- 63%** from *Global Investment Strategist*—a portfolio of mostly Asian stocks.
- 37.6%** from our Master Limited Partnerships (MLP).
- 40.7%** from our 'Proven Reserves' conservative energy portfolio.
- 39.4%** from our Canadian Income Trusts and corporations.
- 17.7%** from our conservative 'Power' portfolio of utility stocks.

When you become a WEALTH SOCIETY member, your total savings is a surprising \$20,670 over 5 years, by paying a much smaller amount for **ALL** of our esteemed advisories, instead of subscribing to them individually.

In Conclusion...

As the chairman of our WEALTH SOCIETY, I feel a special pride in what we offer our members. Every one of them is ready to extend you a warm welcome, and they look forward to meeting you personally at the next Wealth Summit—or at an editor dinner, perhaps? Or maybe they will meet you on one of our members-only quarterly conference calls they will attend with you.

If you have any question whatsoever, just call our customer service team at **800-832-2330**. A friendly, helpful staff member will answer any question you have and go over all the refunds you'll have coming to you, if applicable.

I honestly don't know of a better group of fellow investors you could associate with than our WEALTH SOCIETY members! They, like our analysts, are standing by to welcome you to our elite group of serious-minded, self-directed investors.

Together, we expect to succeed for our subscribers. We are passionate about what we do, and we do it very well. Where else can you find entire portfolios that average **32.2% returns**... even in a pretty challenging year?

The next decade promises to be the most challenging that most of us will have ever seen. But we're in it for the long haul, and we do NOT intend to let you down. So, with our track record, we will continue to aspire to even better returns for our subscribers.

For our WEALTH SOCIETY members, we simply give you much, much more of what you're already profiting from. We hope you'll join us and profit even more in the future.

Call us right now and take advantage of this small window between April 26–May 11, 2011. When we close this membership drive, I don't know when your next opportunity will be. As I'm sure you can see, we're giving a tremendous amount of value for a very small fee.
